# INT-SF-W

## PARTITION KEYPAD

The **INT–SF–W** partition keypad allows you to control operation of each alarm system based on the control panels of **INTEGRA** and **INTEGRA Plus** families. To maintain a uniform design line of the controls, it is recommended that the INT–SF partition keypad be used in alarm systems including the **INT–KLFR**, **INT–TSI**, **INT–TSH2**, **INT–TSG2** and **INT–KSG** keypads.

- white color backlight
- controls single partition in the system
- PANIC, FIRE and AUX alarms triggered from keypad
- LEDs for partition status indication
- buzzer for acoustic signaling of selected system events
- access control functions
- relay for electromagnetic lock / electric strike control
- door status monitoring input
- available in white (**INT–SF–W**), black (**INT–SF–B**), light with silver frame (**INT–SF–SSW**), dark with silver frame (**INT–SF–BSB**) and white with silver frame (**INT–SF–WSW**)

## TECHNICAL DATA

| | |
|---|---|
| **Supply voltage** | 12 V DC |
| **Operating temperature range** | -10°C...+55°C |
| **Standby mode current consumption** | 20 mA |
| **Max. current consumption** | 40 mA |
| **Weight** | 180 g |
| **Maximum humidity** | 93±3% |
| **Dimensions** | 80 x 143 x 25 mm |
| **Environmental class according to EN50130-5** | II |
| **Relay output (resistive load)** | 1 A / 30 V DC |
